Art Unit: 1761

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a filling kit, classified in class 99, subclass .
 - II. Claims 10-14, drawn to a method of producing a filled food product, classified in class 426, subclass 281.
 - III. Claims 15-18, drawn to a method for forming a food product, classified in class 426, subclass 275.
 - IV. Claim 19, drawn to a filling machine, classified in class 99, subclass .

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II & III and I&IV are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice another and materially different process such as filling liquid into containers.

Inventions II and III are unrelated and independent because the processing steps of Invention II are different from the processing steps of Invention III and different end results are obtained from the two methods.

Inventions I and IV are unrelated and independent because the structures of the two apparatuses are different and have different mode of operation.

Art Unit: 1761

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for Group I is not required for Group II, III and IV and vice versa, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
